## On Your Grocery List

New Post Toasties have a delicious new flavor—the true flavor of prime Indian corn—and they have a "body" and firmness that

don't mush down like ordinary "corn flakes" when milk or cream is added.

A distinguishing feature of these New Toasties is the tiny bubbles raised on each flake by the quick, intense heat of a new patented process of manufacture.

The new art of toasting makes New Post Toasties crispier, taste better, and they don't crumble in package. Your grocer has these

—and they're mighty good.
